## Ford Ranger - Integrates into the existing SYNC 3 screen

**Cameras are NOT supplied with interface – can be supplied on request**

If you find it hard to judge the front of the vehicle while parking, if you want to view your caravan or trailer on your factory sync 3 screen while reversing or if you like to keep a check on the rear of your caravan/trailer while your vehicle is in motion then this kit is for you. Simply hold the left button on the steering wheel for 3 seconds to activate the interface.

### Features Include:

- Selectable Camera interface menu (Choose front or rear camera-or both)
- Front camera is not speed dependent (meaning it only switches off when you want - not when you reach a certain speed)
- If switched the front camera will always switch to the factory reverse camera when you are in reverse gear and return to the front camera when taken out of reverse gear.
- If switched the caravan/trailer camera will always stay on, even when the reverse gear is selected it will not return to the factory reverse camera unless you want it to.
- Power Outputs to power your camera, no need to search to for camera power
- RCA Composite Video Input
- Clean and easy to understand installation instructions
- ALL OUR PRODUCTS ARE TESTED 100% BEFORE DISPATCH

### What's Included:

- Camera Interface Box
- Interface Box wiring harness
- SYNC 3 specific harness
- Fitting Instructions

**\*NOTE: A BASIC INSTALLATION GUIDE IS SUPPLIED FOR CAMERA INPUTS. WIRING PATH FOR THE CAMERA HARNESS AND CAMERA FITMENT LOCATION IS **NOT** SUPPLIED.**

Reversing and Front cameras are the perfect addition to your vehicle if you are looking to improve safety, avoid injuries or time-consuming repairs. SVS's camera interface allows you to display the camera images only when you need it.

It has been proven that a slow moving vehicle can be a deadly hazard to young children due to the risk of them being knocked over and crushed at the wheel. Don't risk reversing without a reverse camera, install a reverse camera from ASL today.

**WARRANTY DISCLAIMER NOTICE!** Radio removal, disassembly, installation of Electronics, and Radio re-assembly/re-installation is the responsibility of the installer, not SVS Australia. It is recommended that you contract a professional installer that is experienced with proper work methods involving electronics and knowledgeable of specific procedures for radio disassembly, Electronics installation, and re-assembly/re-installation of the Radio Head Unit in the vehicle.
