SVS100FC.R1 (PAL) SVS100FC.R1.N (NTSC) Recess Mount Camera

Product Information

The SVS100FC.R1 is a small micro camera with 100deg camera angle and IP67 rating - using an Aluminium housing the camera can be moved up/down and using an allen key locking screw to lock the camera in place at the desired angle. This is a hugely diverse camera with wide applications from truck and service bodies through to a 4wd and discrete mounting requirements. This can replace other cameras in our Stop Light camera SVS100SL7 and SVS100SL6 units to give a wider viewing area. A robust little camera with huge fitment options means this can suit many applications - suit the SVS 100 Series monitors

Features

- **Aluminium housing**
- **CMOS Sensor**
- **PAL or NTSC versions**
- **Adjustable Camera Up/Down**
- **0.2 lux**
- **Small connection plug**

Specifications
