SVS200SCMS Motorised Shutter Camera

Product Inform

The SVS200SCMS is a motorised shutter camera designed for harsh conditions with CCD 1/3 High Resolution image. IP69K with a 10G Vibration rating and 100G impact rating makes this suitable for most applications. Available in NTSC or PAL and a viewing angle of 120 degree with built in IR LED's for 0Lux night vision. With a motorised shutter gives added protection to the camera when it is not in use as the shutter automatically closes. With built in optica correction and patented image switching at the camera provides good functionality and versatility.

Features

- 10G Vibration rated
- 100G Impact rated
- normal/mirror image switching
- Aluminium housing
- Built in Speaker
- IR LED's
